THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2010

(1) **Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of the Medical University of South Carolina (the University) and is presented on the accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

(2) **Summary of Significant Accounting Policies for Federal Award Expenditures**

Expenditures for student financial aid programs include the federal share of students' Federal Supplemental Educational Opportunity Grant (FSEOG) program grants and Federal Work Study (FWS) program earnings, certain other federal financial aid for students and administrative cost allowances, where applicable. Federal Pell grant awards are recognized as agency transactions and are not recorded as expenditures in the financial statements.

Expenditures for federal research and development programs are determined using the cost accounting principles and procedures set forth in OMB Circular A-21, *Cost Principles for Educational Institutions*. Under these cost principles, certain expenditures are not allowable or are limited as to reimbursement.

(3) **Non-Cash Assistance**

Most federal financial assistance is in the form of cash awards. However, there are a number of federal programs that do not involve cash transactions with the University. These non cash transactions in which the University obtains other assistance are the Federal Family Education Loan Program (FFELP), which includes the Federal Stafford Student Loan program (subsidized and unsubsidized) and the Federal Parent Loans for Undergraduate Students (FPLUS) and revolving loan programs such as the Federal Perkins Loan program.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2010

The loans advanced and related expenditures are as follows for the various student loan programs:

	<u>CFDA number</u>	<u>Amount</u>
Federal Perkins Loan Program:		
Student loans advanced	84.038	\$ 708,515
Cancellation of loans		<u>254,480</u>
Total Federal Perkins Loan Program		<u>\$ 962,995</u>
Federal Family Education Loan Program –		
Student loans advanced:	84.032	
Stafford Loan Program		\$ 14,399,063
Unsubsidized Stafford Loan Program		38,645,668
Federal PLUS Loan Program		78,838
Federal Graduate PLUS Loan Program		<u>15,678,202</u>
Total Federal Family Education Loan Program		<u>\$ 68,801,771</u>
Health Professions Student Loans, including Primary Care		
Loans/Loans for Disadvantaged Students:		
Loans advanced	93.342	\$ 1,520,184

The Federal Perkins Loan, Health Professions Student Loan (HPSL), and the Loans for Disadvantaged Students (PCL) programs are administered directly by the University and balances and transactions relating to these programs are included in the University's basic financial statements. The balance of loans outstanding under the Federal Perkins, HPSL, and PCL programs were \$5,327,126, \$4,755,101, and \$3,392,704, respectively, as of June 30, 2010.

The University is responsible only for the performance of certain administrative duties with respect to the Federal Family Education Loan Programs and, accordingly, these loans are not included in its financial statements. It is not practicable to determine the balance of loans outstanding to students and former students of the University under these programs as of June 30, 2010.

(4) Matching

Under the Federal Work Study (FWS) program, the University matched \$85,590 in total compensation for the year ended June 30, 2010 in addition to the federal share of expenditures in the accompanying schedule of expenditures of federal awards.

Under the Federal Supplemental Education Opportunity Grant (FSEOG) program, the University matched \$6,745 in funds awarded to students for the year ended June 30, 2010 in addition to the federal share of expenditures in the accompanying schedule of expenditures of federal awards.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2010

(5) Subrecipients

Of the federal expenditures presented in the schedule, the University provided federal awards to subrecipients as follows:

**Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with *Government Auditing
Standards***

Board of Trustees
The Medical University of South Carolina
Charleston, South Carolina:

We have audited the financial statements of the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Medical University of South Carolina (the University), a department of the State of South Carolina, as of and for the year ended June 30, 2010, which collectively comprise the University's basic financial statements, and have issued our report thereon dated October 15, 2010. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Medical University of South Carolina Foundation and the MUSC Foundation for Research Development, discretely presented component units, were not audited in accordance with *Government Auditing Standards*. Other auditors audited the financial statements of the Medical University of South Carolina Foundation and the MUSC Foundation for Research Development, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

For purposes of this report, our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters did not include the Medical University Hospital Authority. We have issued separate reports on our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters for this entity. The findings, if any, included in that report are not included herein.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable

possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the University in a separate letter dated October 15, 2010.

The University's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the University's response, and accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Trustees, and others within the organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Report on Compliance with Requirements
That Could Have a Direct and Material Effect on Each Major Program and on Internal Control
over Compliance in Accordance with OMB Circular A-133**

Board of Trustees
The Medical University of South Carolina
Charleston, South Carolina:

Compliance

We have audited the compliance of the Medical University of South Carolina (the University) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We did not audit the University's compliance with the requirements governing maintaining contact with borrowers and billing and collection procedures and processing deferment and cancellation requests and payments in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement. Those requirements govern functions performed by Educational Computer Systems, Inc. (ECSI). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. ECSI's compliance with the requirements governing the functions that it performs for the University for the year ended June 30, 2010 was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audit of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' examination of ECSI's compliance with such requirements.

The University's basic financial statements include the operations of the Medical University Hospital Authority (the Authority), which received \$404,663,317 in federal awards which is not included in the Schedule of Expenditures of Federal Awards during the year ended June 30, 2010. Our audit, described below, did not include the operations of the Authority because the Authority's federal awards are separately audited in accordance with OMB Circular A-133.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the

University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as Findings 2010-1 through 2010-4.

Internal Control over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as Findings 2010-1 through 2010-4. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the University's internal control.

The University's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University's responses, and accordingly, we express no opinion on them.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the University, a department of the State of South Carolina, as of and for the year ended June 30, 2010, and have issued our report thereon dated October 15, 2010. Our report was modified to include a reference to other auditors. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Trustees, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

KPMG LLP

March 22, 2011, except as to the paragraph relating to the schedule of expenditures of federal awards, which is as of October 15, 2010

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

(1) Summary of Auditors' Results

- (a) The type of report issued on the basic financial statements: **Unqualified opinion**
- (b) Significant deficiencies in internal control were disclosed by the audit of the basic financial statements: **None reported** Material weaknesses: **None**
- (c) Noncompliance which is material to the basic financial statements: **None**
- (d) Significant deficiencies in internal control over major programs: **Yes, see findings 2010-01 through 2010-04** Material weaknesses: **None**
- (e) The type of report issued on compliance for major programs: **Unqualified opinion**
- (f) Any audit findings which are required to be reported under Section 0.510(a) of OMB Circular A-133: **Yes, see findings 2010-01 through 2010-04**
- (g) Major Federal programs: **Research and Development cluster (various CFDA numbers), Congressionally - Identified Projects (CFDA number 11.617), ARRA - State Fiscal Stabilization Fund (CFDA number 84.394), Health Care and Other Facilities (CFDA number 93.887) and Ryan White Program (CFDA number 93.917)**
- (h) Dollar threshold used to distinguish between Type A and Type B programs: **\$3,000,000**
- (i) Auditee qualified as a low-risk auditee under Section 0.530 of OMB Circular A-133: **Yes**

(2) Findings Relating to the Basic Financial Statements Reported in Accordance with *Government Auditing Standards*

None

(3) Findings and Questioned Costs Relating to Federal Awards

Finding 2010-01

Activities Allowed/Allowable Costs

Federal Agency:	U.S. Department of Health and Human Services
Federal Program:	Research and Development Cluster
Pass-through Entity:	National Institutes of Health
CFDA No.	93.RD
Federal Award Year:	See Appendix A

Criteria

For fiscal year 2010, Public Law III-117; *Consolidated Appropriations Act, 2010* restricts the amount of direct salary that an individual may receive under a National Institutes of Health (NIH) grant.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Condition

During our test work over the Research and Development Cluster, we selected a sample of 65 payroll expenditures, which totaled \$417,046. In one of our samples, it was determined a NIH salary cap had been exceeded and the excess had been charged to the program. Upon discovery, the University compiled all salaries that were charged to NIH grants from their payroll system. Each employee who had a salary in excess of the NIH cap was reviewed to determine if the salary excess was charged to the grant. Upon further testing, it was determined that the University had incorrectly charged NIH grants in excess of the salary cap for several programs in 2010 and 2009.

Cause

The University experienced breakdowns in its process to ensure that salaries that exceed the NIH salary cap are properly segregated so that the excess is not charged to the NIH grant. The deficiency appears not to be systemic in nature as it only relates to the population of NIH grants.

Questioned Cost

\$35,240 (2010)

\$19,050 (2009)

Effect

Noncompliance could result in the excess charges of salaries against the grant and the University having to return funds to the NIH.

Recommendation

We recommend that the University grant administration continue to strengthen its processes and controls in place to help ensure that all salaries for NIH grants are closely monitored and salary increases are adjusted appropriately to ensure the salary cap is not exceeded.

Management response

We take no exception to the reported finding. During the course of the audit, we performed a complete review to identify all employees with salary charged to awards subject to the NIH salary cap. We then verified if we had appropriately adjusted those salaries which exceeded the cap. The questioned amounts reported above represent the salaries we identified and have subsequently been corrected.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Finding 2010-2

Reporting – Financial Status Reports

Federal Agency: U.S. Department of Health and Human Services
Federal Program: Research and Development Cluster
Pass-through Entity: National Institutes of Health
Health Resources and Services Administration
Agency for Healthcare Research and Quality
CFDA No. 93.RD
Federal Award Year: See Appendix B

Criteria

Per Circular A-110, Section 52, the Federal awarding agency shall determine the frequency of the Financial Status Report for each project or program, considering the size and complexity of the particular project or program. Each project is assigned a reporting due date for which financial status reports, forms 269s, must be filed.

Condition

During our test work over the Research and Development Cluster, we selected a sample of 40 financial status reports and noted that 19 of the reports had not been submitted within the required time frame as stipulated in the grant agreement.

Cause

The University experienced breakdowns in its process to ensure that all grant reports are submitted on a timely basis. The reporting exception appears to be systemic in nature.

Questioned Cost

None.

Effect

Noncompliance could result in a lack of timely reporting in accordance with the terms of the grant agreement.

Recommendation

We recommend that the University strengthen its processes and controls in place to help ensure that all financial status reports are submitted in a timely manner in accordance with the grant agreement.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Management Response

We take no exception to the reported finding. Management is currently reviewing the increased reporting workload to determine the most reasonable course of action to ensure reports are submitted in a timely manner.

Finding 2010-3

Subrecipient Monitoring

Federal Agency:	U.S. Department of Energy U.S. Department of Health and Human Services
Federal Program:	Research and Development Cluster
Pass-through Agency:	South Carolina Universities Research and Education Foundation National Institutes of Health
CFDA No.	81.RD and 93.RD
Award year:	September 15, 2005 - March 14, 2011 February 1, 2008 - April 30, 2013

Criteria

Under OMB Circular A-133, at the time of the award, a pass-through entity is responsible for identifying to the subrecipient the federal award information including CFDA title and number, award name and number, if the award is research and development, and the name of the Federal awarding agency.

Condition

During our test work over the Research and Development Cluster, we selected a total sample of 75 sub recipients. Within our sample, we noted that one subrecipient was provided the incorrect CFDA number and at the time of the audit the University did not correct the error. We noted the University has a control in place whereby a checklist is prepared to ensure all required documentation has been completed. During our testwork, we also noted one subrecipient for which the checklist could not be located and the University completed the checklist at the time of the audit.

Cause

The University experienced breakdowns in its process to ensure that all information provided to sub recipients is accurate. The subrecipient monitoring exception does not appear to be systemic in nature based on the limited number of exceptions identified in our sample test work results.

Questioned Cost

None.

Effect

Noncompliance could result in ineffective monitoring of subrecipients and lack of accuracy in reporting pass-through awards.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Recommendation

We recommend that the University strengthen its processes and controls in place to help ensure that all information provided to subrecipients is correct.

Management Response

We take no exception to the reported finding. The University recently installed a new electronic grants management system. The target date for the completed implementation is July 1, 2011. The new system includes the controls and edit checks necessary to eliminate these types of errors.

Finding 2010-4

Reporting – Financial Status Reports

Federal Agency:	U.S. Department of Commerce
Federal Program:	Hollings Cancer Center
CFDA No.	11.617
Federal Award Year:	July 1, 2004 - December 31, 2010

Criteria

Per Circular A-110, Section 52, the Federal awarding agency shall determine the frequency of the Financial Status Report for each project or program, considering the size and complexity of the particular project or program. Each project is assigned a reporting due date for which financial status reports, forms 269s and forms 272s, must be filed.

Condition

During our test work over the Hollings Cancer Center program, we selected a sample of 6 financial status reports and 6 performance reports and noted that none of the reports had been submitted within the required time frame as stipulated in the grant agreement.

Cause

The University experienced breakdowns in its process to ensure that all grant reports are submitted on a timely basis. The reporting exception appears to be systemic in nature.

Questioned Cost

None.

Effect

Noncompliance could result in a lack of timely reporting in accordance with the terms of the grant agreement.

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Recommendation

We recommend that the University strengthen its processes and controls in place to help ensure that all financial status reports are submitted in a timely manner in accordance with the grant agreement.

Management Response

We take no exception to the reported finding. Management is currently reviewing the increased reporting workload to determine the most reasonable course of action to ensure reports are submitted in a timely manner.
