Development of Ultra Low Platinum Alloy Cathode Catalyst for PEM Fuel Cells	81.RD	DE-EE0000460	683,738
Topic 4A Transport Studies in Modeling in PEM Cell Stack - subcontract to Giner Electrochemical Systems, LLC	81.RD	DE-EE0000471	97,040
University of South Carolina Aiken Biofuels Laboratory in Aiken, SC	81.RD	DE-EE0003152	89,845
High Performance and Stable Pr2NiO4 as the Cathode for Solid Oxide Fuel Cells	81.RD	DE-FE000303	120,000
ARRA - Geologic Characterization of the South Georgia Rift Basin for Source Proximal CO2 Storage	81.RD	DE-FE0001965	1,563,359
Meeting: 4th Pan American Plant Membrane Biology Workshop (Asilomar, CA May 16-20, 2012)	81.RD	DE-SC0008002	800
Predicting Ice Sheet and Climate Evolution at Extreme Scales (PISCEES)	81.RD	DE-SC0008087	34,356
Theoretical Investigation of Heterogeneous Catalysis at the Solid Interface for the Conversion of Lignocellulosic Biomass Model Molecules	81.RD	DE-SC0007167	200,386
Experimental Particle Physics (Neutrino)	81.RD	DEFG0295ER40910	401,773
Experimental Particle Physics (ATLAS)	81.RD	DEFG0295ER40910	168,379
Experimental Particle Physics (BaBar Activities)	81.RD	DEFG0295ER40910	53,247
Science Based Nano-Structure Design and Synthesis of Heterogeneous Functional Materials for Energy Systems	81.RD	DE-SC0001061	429,945
Administrative Core (Parent Account)	81.RD	DE-SC0001061	1,727,898
Science Based Nano-Structure Design and Synthesis of Heterogeneous Functional Materials for Energy Systems - (Education Core)	81.RD	DE-SC0001061	33,358
Fundamental Neutron Physics: Theory and Analysis	81.RD	DE-SC0001473	110,426
1D and 2D Assembly of Plant Viruses for Materials Development	81.RD	DE-SC0001477	2,594
Structure-Composition-Property Relationships of Complex Bismuth Oxide Based Photocatalysts	81.RD	DE-SC0001478	107,353
A Synthetic Strategy to Prepare New Complex Uranium and Thorium Containing Oxides: Predictive Solid State Synthesis of New Composition Using Radius Ratio Rules and Materials Discovery based on Crystal Growth from High Temperature Solutions	81.RD	DE-SC0008664	87,427
Ammonia Process by Pressure Swing Adsorption	81.RD	GO16105	
Assembly and Testing of the Forward Time-of-Flight Panel-1b For Clas12	81.RD	JSA-11-C1237	124,600
Microstructure and Property Evolution in Advanced Cladding and Duct Materials Under Long-Term and Elevated Temperature Irradiation: Modeling and Simulation	81.RD	ORA110125001.03	55,959
Gas Chromatograph-Mass Spectrometer: Operation and Maintenance	81.RD	RR2674144893896	3,008
H-02 Wetland Organic Matter/Toxicity Study 2012	81.RD	RR2674144893906	1,974
Design of an Impact Evaluation of School-Wide Positive Behavior Supports	81.RD	TANGLEWOOD RESE	35,839
Salt-Water Intrusion into Coastal Freshwater Wetlands: Effects on Ecosystem Metabolism and Soil Carbon and Nutrient Storage	81.RD	TUL-605-10/11	340
Topic 3C-Effect of System and Air Contaminants on PEMFC Performance and Durability-Subcontractor to NREL	81.RD	ZGB-0-99180-01	313,467

Notes to Schedule of Expenditures of Federal Awards For the year ended June 30, 2013

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule), includes the federal grant activity of the University of South Carolina (the University), and is presented on the accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in, the preparation of the basic financial statements.

Note 2. Summary of Significant Accounting Policies For Federal Award Expenditures

Expenditures for student financial aid programs include the federal share of students' Federal Supplemental Educational Opportunity Grant (FSEOG) program grants and Federal Work Study (FWS) program earnings, certain other federal financial aid for students and administrative cost allowances, where applicable.

Expenditures for federal research and development programs are determined using the cost accounting principles and procedures set forth in OMB Circular A-21, *Cost Principles for Educational Institutions*. Under these cost principles, certain expenditures are not allowable or are limited as to reimbursement.

Expenditures for nonfinancial aid awards include indirect costs, related primarily to facilities operation and maintenance and general, divisional and departmental administrative services, which are allocated to direct cost objectives (including federal awards) based on negotiated formulas commonly referred to as facilities and administrative cost rates. Facilities and administrative costs allocated to such awards for the year ended June 30, 2013 were based on predetermined fixed rates negotiated with the University's cognizant federal agency.

Note 3. Federal Perkins Loan Program (CFDA Number 84.038)

The Federal Perkins Loan (FPL) program is administered directly by the University and balances and transactions relating to the program are included in the University's financial statements. The balance of loans outstanding under the FPL program was \$18,059,083 as of June 30, 2013.

Note 4. Matching

Under the FWS program, the University matched \$367,891 in total compensation for the year ended June 30, 2013, in addition to the federal share of expenditures in the accompanying schedule.

Under the FSEOG program, the University matched \$349,447 in funds awarded to students for the year ended June 30, 2013, in addition to the federal share of expenditures in the accompanying schedule.

**Independent Auditor’s Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed In Accordance With *Government Auditing Standards***

The Board of Trustees
University of South Carolina
Columbia, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the aggregate discretely presented component units of the University of South Carolina (the University), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the University’s basic financial statements, and have issued our report thereon dated October 10, 2013. Our report includes a reference to other auditors who audited the financial statements of the University of South Carolina School of Medicine Educational Trust and Clinical Faculty Practice Plan (the Trust); University of South Carolina Research Foundation; the University of South Carolina Educational Foundation; the University of South Carolina Business Partnership Foundation; the Greater University of South Carolina Alumni Association; the USC Upstate Foundation; the USC Upstate Capital Foundation; and the Educational Foundation of the University of South Carolina-Lancaster, (collectively referred to as the Trust and the Foundations), as described in our report on the University’s financial statements. This report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors. The financial statements of the Foundations, excluding the University of South Carolina Research Foundation, were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University’s internal control. Accordingly, we do not express an opinion on the effectiveness of the University’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we and the other auditors did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify deficiency 2013-1 in internal control, described in the accompanying *Schedule of Findings and Questioned Costs*, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The University's Response to Findings

The University's response to the finding identified in our audit is described in the accompanying *Schedule of Findings and Questioned Costs*. The University's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor’s Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance; and
Report on the Schedule of Expenditures of Federal Awards
Required by OMB Circular A-133**

The Board of Trustees
University of South Carolina
Columbia, South Carolina

Report on Compliance for Each Major Federal Program

We have audited the University of South Carolina’s (the University) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University of South Carolina’s (the University) major federal programs for the year ended June 30, 2013. The University’s major federal programs are identified in the summary of auditor’s results section of the accompanying *Schedule of Findings and Questioned Costs*.

The University’s basic financial statements include the operations of the University of South Carolina Research Foundation (the Foundation), which received \$84.2 million in federal awards which is not included in the schedule during the year ended June 30, 2013. Our audit, described below, did not include the operations of the Foundation because the component unit engaged other auditors to perform an audit in accordance with OMB Circular A-133.

Management’s Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the University’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University’s compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University’s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University’s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the business-type activities, the aggregate discretely presented component units of the University, a department of the State of South Carolina (the State), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the University’s basic financial statements. We issued our report thereon dated October 10, 2013, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

II. Financial Statement Findings:

2013-1: Grant Revenue

Criteria: As described in paragraph 21 of GASB 33 - *Accounting and Financial Reporting for Nonexchange Transactions*, grant recipients should recognize receivables and revenues when all applicable eligibility requirements are met.

Condition: During May 2013, the University met eligibility requirements related to approximately \$5.1 million in reimbursable grant expenditures. However, revenue and grant receivables related to these expenditures were not recorded in the University's closing general ledger for the year ended June 30, 2013.

Context: Total grant expenditures per the schedule of federal awards was compared to federal grant revenues per the general ledger. The resulting variance was investigated.

Effect: Grant revenues and grant receivables were understated by approximately \$5.1 million.

Cause: During fiscal year 2013, a new invoicing procedure was implemented for pass-through entities which caused grant revenue to be understated.

Recommendation: We recommend the University record grants receivable and related revenues as soon as grant eligibility requirements are met.

Views of responsible officials and planned corrective actions: Grant revenues and grant receivables will be recorded at the end of each monthly accounting period. Any outstanding transactions at the end of the fiscal year will be accrued and recorded in accordance with University and accounting rules and policies. This one time occurrence was due to a procedural change to increase efficiency. The procedure has been analyzed and is deemed to be correct and in standing with the function for which it was devised.
