INDEPENDENT ACCOUNTANT’S REPORT ON APPLYING AGREED-UPON PROCEDURES

April 12, 2017

Members of the South Carolina House of Representatives
South Carolina General Assembly
Columbia, South Carolina

We have performed the procedures described below, which were agreed to by the Clerk of the South Carolina House of Representatives (The House), solely to assist you in evaluating the performance of The House for the fiscal year ended June 30, 2015, in the areas addressed. The House’s management is responsible for its financial records, internal controls and compliance with State laws and regulations. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

1. **Cash Receipts and Revenues**
   - We inspected sixteen selected recorded receipts to determine if these receipts were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations.
   - We inspected five selected recorded receipts to determine if these receipts were recorded in the proper fiscal year.
   - We made inquiries and performed substantive procedures to determine if revenue collection and retention or remittance were supported by law.
   - We compared current year recorded revenues at the subfund and account level from sources other than State General Fund appropriations to those of the prior year. We investigated changes in the general and earmarked funds to ensure that revenue was classified properly in the agency’s accounting records. The scope was based on agreed upon materiality levels ($0 – general fund and $3,100 – earmarked fund) and ± 10 percent.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.
2. **Non-Payroll Disbursements and Expenditures**
   - We inspected twenty-five selected recorded non-payroll disbursements to determine if these disbursements were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations, were bona fide disbursements of The House, and were paid in conformity with State laws and regulations; if the acquired goods and/or services were procured in accordance with applicable laws and regulations.
   - We inspected twenty-five selected recorded non-payroll disbursements to determine if these disbursements were recorded in the proper fiscal year.
   - We compared current year expenditures at the subfund and account level to those of the prior year. We investigated changes in the general and earmarked funds to ensure that expenditures were classified properly in the agency’s accounting records. The scope was based on agreed upon materiality levels ($112,800 – general fund and $1,400 – earmarked fund) and ± 10 percent.

   The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

3. **Payroll Disbursements and Expenditures**
   - We inspected twenty-five selected recorded payroll disbursements to determine if the selected payroll transactions were properly described, classified, and distributed in the accounting records; persons on the payroll were bona fide employees; and payroll transactions were properly authorized and were in accordance with existing legal requirements and processed in accordance with the agency’s policies and procedures and State regulations.
   - We inspected payroll transactions for twenty-one selected new employees and eighteen individuals who terminated employment to determine if the employees were added and/or removed from the payroll in accordance with the agency’s policies and procedures, that the employee’s first and/or last pay check was properly calculated and that the employee’s leave payout was properly calculated in accordance with applicable State law.
   - We compared current year payroll expenditures at the subfund and account level to those of the prior year. We investigated changes in the general fund to ensure that expenditures were classified properly in the agency’s accounting records. The scope was based on agreed upon materiality level ($112,800 – general fund) and ± 10 percent.

   The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

4. **Journal Entries and Operating Transfers**
   - We inspected five selected recorded journal entries and all operating transfers to determine if these transactions were properly described and classified in the accounting records; they agreed with the supporting documentation, the purpose of the transactions was documented and explained, the transactions were properly approved, and were mathematically correct; and the transactions were processed in accordance with The House’s policies and procedures and State regulations.

   The individual journal entry transactions selected were chosen randomly. We found no exceptions as a result of the procedures.
5. **Appropriation Act**
   - We inspected agency documents, observed processes, and/or made inquiries of agency personnel to determine The House’s compliance with Appropriation Act general provisos as listed in the Appropriation Act work program, and agency specific provisos, if applicable.

   We found no exceptions as a result of the procedures.

6. **Reporting Packages**
   - We obtained copies of all reporting packages as of and for the year ended June 30, 2015, prepared by The House and submitted to the State Comptroller General. We inspected them to determine if they were prepared in accordance with the Comptroller General’s Reporting Policies and Procedures Manual requirements and if the amounts reported in the reporting packages agreed with the supporting workpapers and accounting records.

   Our finding as a result of these procedures is presented in Capital Assets Reporting Package in the Accountant’s Comments section of this report.

7. **Status of Prior Findings**
   - We inquired about the status of the findings reported in the Accountant’s Comments section of the State Auditor’s Report on The House resulting from our engagement for the fiscal year ended June 30, 2014, to determine if The House had taken corrective action.

   Our finding as a result of these procedures is presented in Capital Assets Reporting Package in the Accountant’s Comments section of this report.

The concept of materiality does not apply to findings to be reported in an agreed-upon procedures engagement. Therefore, all findings from the application of the agreed-upon procedures must be reported unless the definition of materiality is agreed to by the specified parties. Management of The House has agreed that the following deficiencies will not be included in the State Auditor’s Report on Applying Agreed-Upon Procedures:

- Clerical errors of less than $100 related to processing cash receipts and cash disbursements transactions unless the errors occur in ten percent or more of the transaction class tested.
- Clerical errors of less than $100 related to reporting packages.
- Errors in applying account coding definitions to accounting transactions unless it is determined that ten percent or more of the accounting transactions tested were found to be in error.
- Reporting packages which are submitted less than three business days after the due date unless it is determined that more than two of the reporting packages were submitted late.
Members of the South Carolina House of Representatives  
South Carolina General Assembly  
April 12, 2017

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the specified elements, accounts, or items. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Clerk of The House and Members of The House of Representatives and is not intended to be and should not be used by anyone other than these specified parties.

George L. Kennedy, III, CPA  
State Auditor
ACCOUNTANT’S COMMENTS
Management of each State agency is responsible for establishing and maintaining internal controls to ensure compliance with State Laws, Rules or Regulations. The procedures agreed to by the agency require that we plan and perform the engagement to determine whether any violations of State Laws, Rules or Regulations occurred.

The condition described in this section has been identified as a violation of State Laws, Rules or Regulations.
CAPITAL ASSETS REPORTING PACKAGE

Condition:

During our inspection of the Capital Assets Reporting Package we noted that The House incorrectly depreciated three assets on their FY15 Capital Assets Worksheet. One asset was depreciated after it had been retired in FY14 and two assets were under depreciated in FY15.

Cause:

Human error/Agency oversight.

Effect:

The current year depreciation and accumulated depreciation were understated and Net Depreciable Assets and Total Capital Assets were overstated by $10,029 for FY15.

Criteria:

Section 1.7 of the Comptroller General's Year-End Reporting Package Policies and Procedures Manual states, “Each agency’s executive director and finance director are responsible for submitting to the Comptroller General's Office reporting packages and/or financial statements that are: accurate and prepared in accordance with instructions, complete, and timely”.

Recommendation:

We recommend The House implement procedures to ensure reporting packages and supporting schedules are completed in accordance with the Comptroller General’s Reporting Policies and Procedures Manual.

Management's Response:

Actions have been taken to correct the finding.
SECTION B - STATUS OF PRIOR FINDINGS

During the current engagement, we reviewed the status of corrective action taken on each of the findings reported in the Accountant's Comments section of the State Auditor's Report on The House for the fiscal year ended June 30, 2014, and dated October 28, 2015. We determined that The House has taken adequate corrective action on each of the findings, except we have repeated Capital Assets Reporting Package.
