INDEPENDENT ACCOUNTANTS’ REPORT ON APPLYING AGREED-UPON PROCEDURES

February 11, 2015

Mr. Richard H. Gilbert, Jr., CPA
Deputy State Auditor
Office of the State Auditor
Columbia, South Carolina

We have performed the procedures described below, which were agreed to by the South Carolina Office of the State Auditor and management of South Carolina Department of Health and Human Services (the “Department”), solely to assist you in evaluating the performance of the Department for the fiscal year ended June 30, 2014, in the areas addressed. The Department’s management is responsible for its financial records, internal controls and compliance with State laws and regulations. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

1. **Cash Receipts and Revenues**
   - We inspected twenty-five selected recorded receipts to determine if these receipts were properly described and classified in the accounting records in accordance with the Department’s policies and procedures and State regulations.
   - We inspected five selected recorded receipts to determine if these receipts were recorded in the proper fiscal year.
   - We made inquiries and performed substantive procedures to determine if revenue collection and retention or remittance were supported by law.
   - We compared current year recorded revenues at the subfund and account level from sources other than State General Fund appropriations to those of the prior year. We investigated changes in the earmarked, restricted, and federal funds to ensure that revenue was classified properly in the Department’s accounting records. The scope was based on agreed upon materiality levels ($1,600,000 - earmarked fund, $1,600,000 – restricted fund, and $16,000,000 – federal fund) and ±10 percent.
The individual transactions selected were chosen randomly. Our finding as a result of these procedures is presented in Revenue Retention Policy in the Accountant’s Comments section of this report.

2. Non-Payroll Disbursements and Expenditures
   - We inspected twenty-five selected recorded non-payroll disbursements, including Medicaid payments, to determine if these disbursements were properly described and classified in the accounting records in accordance with the Department’s policies and procedures and State regulations, were bona fide disbursements of the South Carolina Department of Health and Human Services, and were paid in conformity with State laws and regulations; if the acquired goods and/or services were procured in accordance with applicable laws and regulations.
   - We inspected five selected recorded non-payroll disbursements to determine if these disbursements were recorded in the proper fiscal year.
   - We compared current year expenditures at the subfund and account level to those of the prior year. We investigated changes in the general, earmarked, restricted, and federal funds to ensure that expenditures were classified properly in the Department’s accounting records. The scope was based on agreed upon materiality levels ($4,000,000 – general fund, $1,200,000 – earmarked fund, $1,900,000 – restricted fund, and $16,000,000 – federal fund) and ±10 percent.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

3. Payroll Disbursements and Expenditures
   - We inspected twenty-five selected recorded payroll disbursements to determine if the selected payroll transactions were properly described, classified, and distributed in the accounting records; persons on the payroll were bona fide employees; payroll transactions were properly authorized and were in accordance with existing legal requirements and processed in accordance with the Department’s policies and procedures and State regulations.
   - We inspected payroll transactions for sixteen selected new employees and fourteen individuals who terminated employment to determine if the employees were added and/or removed from the payroll in accordance with the Department’s policies and procedures, that the employee’s first and/or last paycheck was properly calculated and that the employee’s leave payout was properly calculated in accordance with applicable State law.
   - We compared current year payroll expenditures at the subfund and account level to those of the prior year. We investigated changes in the general, earmarked, restricted, and federal funds to ensure that expenditures were classified properly in the Department’s accounting records. The scope was based on agreed upon materiality levels ($4,000,000 – general fund, $1,200,000 – earmarked fund, $1,900,000 – restricted fund, and $16,000,000 – federal fund) and ±10 percent.
• We compared the percentage change in recorded personal service expenditures to the percentage change in employer contributions; and computed the percentage distribution of recorded fringe benefit expenditures by fund source and compared the computed distribution to the actual distribution of recorded payroll expenditures by fund source. We investigated changes of ±10 percent to ensure that payroll expenditures were classified properly in the Department’s accounting records.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

4. **Journal Entries, Operating Transfers and Appropriation Transfers**

• We inspected twenty-five selected recorded journal entries, five operating transfers, and twenty-five appropriation transfers to determine if these transactions were properly described and classified in the accounting records; they agreed with the supporting documentation, the purpose of the transactions was documented and explained, the transactions were properly approved, and were mathematically correct; and the transactions were processed in accordance with the Department’s policies and procedures and State regulations.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

5. **General Ledger and Subsidiary Ledgers**

• We inspected five selected entries and weekly totals in the subsidiary records of South Carolina Department of Health and Human Services to determine if the amounts were mathematically accurate; the numerical sequences of selected document series were complete; the selected weekly totals were accurately posted to the general ledger; and selected entries were processed in accordance with the Department’s policies and procedures and State regulations.

The transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

6. **Composite Reservoir Accounts Reconciliations**

• We obtained all monthly reconciliations prepared by the Department for the year ended June 30, 2014, and inspected six selected reconciliations of balances in the Department’s accounting records to those reflected on the State Treasurer’s Office monthly reports to determine if accounts reconciled. For the selected reconciliations, we determined if they were timely performed and properly documented in accordance with State regulations, recalculated the amounts, agreed the applicable amounts to the Department’s general ledger, agreed the applicable amounts to the State Treasurer’s Office monthly reports, determined if reconciling differences were adequately explained and properly resolved, and determined if necessary adjusting entries were made in the Department’s accounting records.
**Cash Receipts and Revenues**

- We inspected eighteen selected recorded receipts to determine if these receipts were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations.
- We inspected eighteen selected recorded receipts to determine if these receipts were recorded in the proper fiscal year.
- We made inquiries and performed substantive procedures to determine if revenue collection and retention or remittance were supported by law. We obtained all monthly reconciliations prepared by the Department.

**Non-Payroll Disbursements and Expenditures**

- We inspected forty-nine selected recorded non-payroll disbursements to determine if these disbursements were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations, were bona fide disbursements of the Department, and were paid in conformity with State laws and regulations; if the acquired good and/or services were procured in accordance with applicable laws and regulations.
- We inspected forty-nine selected recorded non-payroll disbursements to determine if these disbursements were recorded in the proper fiscal year.

The reconciliations selected were chosen randomly. The cash receipts and disbursement transactions were selected randomly. We found no exceptions as a result of the procedures.

7. **Appropriation Act**

- We inspected agency documents, observed processes, and/or made inquiries of agency personnel to determine the Department’s compliance with Appropriation Act general and Department specific provisos.

We found no exceptions as a result of the procedures.

8. **Reporting Packages**

- We obtained copies of all reporting packages as of and for the year ended June 30, 2014, prepared by South Carolina Department of Health and Human Services and submitted to the State Comptroller General. We inspected them to determine if they were prepared in accordance with the Comptroller General’s GAAP Reporting Policies and Procedures Manual requirements and if the amounts reported in the reporting packages agreed with the supporting workpapers and accounting records.

Our finding as a result of these procedures is presented in Reporting Packages in the Accountants’ Comments section of this report.
9. **Schedule of Federal Financial Assistance**
   - We obtained a copy of the schedule of federal financial assistance for the year ended June 30, 2014, prepared by South Carolina Department of Health and Human Services and submitted to the State Auditor. We inspected it to determine if it was prepared in accordance with the State Auditor’s letter of instructions; if the amounts agreed with the supporting workpapers and accounting records.

   We found no exceptions as a result of the procedures.

10. **Status of Prior Findings**
    - We inquired about the status of the findings reported in the Accountants’ Comments section of the State Auditor’s Report on the Department resulting from our engagement for the fiscal year ended June 30, 2013, to determine if the Department had taken correction action.

    Our finding as a result of these procedures is presented in the Revenue Retention Policy in the Accountants’ Comments section of this report.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the specified elements, accounts, or items. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Governor, the South Carolina Office of the State Auditor and the management of the South Carolina Department of Health and Human Services and is not intended to be and should not be used by anyone other than these specified parties.

The Hobbs Group, PA
Columbia, South Carolina
SECTION A – VIOLATIONS OF STATE LAWS, RULES OR REGULATIONS

Management of each State Agency is responsible for establishing and maintaining internal controls to ensure compliance with State Laws, Rules, or Regulations. The procedures agreed to by the agency require that we plan and perform the engagement to determine whether any violations of State Laws, Rules or Regulations occurred.

The conditions described in this section have been identified as violations of State Laws, Rules or Regulations.
REVENUE RETENTION POLICY

Section 33.37 of FY 2013 – 14 Appropriation Act states, “For the current fiscal year, the Department of Health and Human Services is authorized to carry forward and expend any General Fund balance for the Medicaid program. Within thirty days after the close of the fiscal year, the department shall report the balance carried forward to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.” The Comptroller General closed the State’s books of account for the fiscal year ending June 30, 2014 on August 20, 2014.

The Department submitted the report to the Chairmen of the Senate Finance Committee and House Ways and Means Committee on October 9, 2014. A similar finding was noted in prior year Agreed-Upon Procedures report dated February 21, 2014.

The Department prepared the required reports within thirty days after the close of the fiscal year; however, the reports were pending executive review which caused a delay in the submission.

The Department prepared and submitted the comprehensive report to the required individuals but not within the required thirty days after the Comptroller General closed the fiscal year. We recommend the Department development and implement procedures to ensure timely reporting in accordance with applicable State law. If the current thirty day requirement does not provide the Department with sufficient time to comply with the reporting requirement, then the Department should request that the reporting deadline be changed to 45 or 60 days.

REPORTING PACKAGES

We tested the accounts payable reporting package to ensure that it was completed in accordance with reporting package instructions and was supported by the Department’s accounting records. We determined that the Department included in the fiscal year 2013 – 2014 accounts payable reporting package an invoice for services received in fiscal year 2014 – 2015.

We were told by Department staff that the error was due to oversight. Because this error was not detected by Department staff the accounts payable reporting package was overstated by $29,881.

Section 12 of the Reporting Policies and Procedures Manual states an agency should “accrue liabilities that arise from goods delivered on or before year end and services received on or before year end.” Furthermore, Section 1.7 of the Reporting Policies and Procedures Manual states, “Each agency’s executive director or finance director are responsible for submitting to the Comptroller General’s Office reporting packages and/or financial statements that are accurate and prepared in accordance with instructions, complete, (and) timely.”

We recommend the Department ensure that personnel responsible for completing and approving the reporting packages are knowledgeable of the reporting package requirements and complete the reporting package in accordance with instructions.
SECTION B – STATUS OF PRIOR FINDINGS

During the current engagement, we reviewed the status of corrective action taken on each of the findings reported in the Accountant’s Comments section of the State Auditor’s Report on the Department for the fiscal year ended June 30, 2013, and dated February 21, 2014. We determined that the Department has taken adequate corrective action on each of the findings except for the following: Revenue Retention Policy.
MANAGEMENT'S RESPONSE

Attachment A
March 2, 2015

The Hobbs Group, P.A.
1704 Laurel Street
Columbia, South Carolina 29201

We have reviewed the audit findings for the Fiscal Year 2014 Agreed-Upon Procedures Audit for the South Carolina Department of Health & Human Services (DHHS), and offer the following response(s) for your consideration:

Section A- Violations of State Laws, Rules or Regulations

REVENUE RETENTION POLICY

**Recommendation**: The Department develop and implement procedures to ensure timely reporting in accordance with applicable state law. If the current 30 day requirement does not provide the Department with sufficient time to comply with the reporting requirement, then the Department should request that the reporting deadline be changes to 45 or 60 days.

**Response**: As indicated in the 2013 response, DHHS enhanced its procedures to produce the report for timely submission. DHHS will increase its efforts to ensure release of the data after appropriate executive level review is within established timeframe.

REPORTING PACKAGES

**Recommendation**: We recommend the Department ensure that personnel responsible for completing and approving the reporting packages are knowledgeable of the reporting package requirements and complete the reporting package in accordance with instructions.

**Response**: DHHS concurs with this recommendation. Increase training efforts have been employed to build knowledge and application of reporting package requirements.

Sincerely,

Adriana Day
Deputy Director and CFO
