Findings

Removal of Terminated Employees:

We noted three employees who were included in our terminations population that did not work at the Department during FY16. In addition, during our inspection of terminations, we observed four additional employees who were not removed from the system in a timely manner after their termination date. This resulted in the Department having employees on its payroll system who were not utilized.
Findings (Continued)

Bonus Pay:

Additionally, during our bonus pay inspection, we observed emails provided by the Department that stated the reason one of their employees received an $800 bonus was because they did not meet the criteria for the FY16 supplemental bonus due to being in a grant position. However, on the Bonus Justification Form the reason given for the bonus was “Productivity/Customer Service”. Based on this information, it appears that an FY16 supplemental bonus was given to an employee that was not eligible to receive the bonus.

Management’s Response

SCPRT’s Human Resources Office is instituting a procedure to review non-active seasonal employees on a regular basis to ensure they are terminated in a timely manner.

Management determined the employee met the guidelines of the agency’s bonus plan while not meeting the general bonus guidelines for the state appropriated bonuses authorized by the General Assembly.

14. Randomly select eighteen journal entries and seven transfers for the fiscal year to:
   - Trace postings to the general ledger, confirming amounts agree with supporting documentation.
   - Confirm transaction is properly approved.
   - Inspect supporting documentation to confirm the purpose of the transaction.

   We found no exceptions as a result of the procedures.

15. Inspect the Appropriation Act work program, provided to and completed by management, noting areas of noncompliance, if any.

16. Confirm compliance with agency-specific state provisos by inquiring with management and observing supporting documentation.

   We found no exceptions as a result of the procedures.

Reporting Packages

17. Obtain copies of fiscal year end reporting packages submitted to the Office of the State Comptroller General. Inspect the following reporting packages, Master Reporting Package, Accounts Payable Reporting Package, Capital Assets Reporting Package, Inventory Reporting Package, and Subsequent Events Reporting Package to:
   - Determine if preparation was in accordance with Comptroller General Office requirements (http://www.cg.sc.gov/guidanceandformsforstateagencies)
   - Determine if amounts reported in the reporting packages agree with the supporting workpapers and accounting records

   We found no exceptions as a result of the procedures.
Composite Reservoir Accounts

18. Obtain a listing of agency composite reservoir accounts from agency management and confirm that the list is complete.

   • Determine the selected reconciliations were timely performed and properly documented in accordance with State regulations, and are mathematically correct.
   • Agree applicable amounts from reconciliations to the general ledger.
   • Agree applicable amounts from reconciliations to the State Treasurer’s Office monthly reports.
   • Determine if reconciling differences were adequately explained and properly resolved.
   • Determine if necessary adjusting entries were made in the accounting records.
   • Obtain a reconciliation of applicable composite reservoir account balances to the liability for assets held in custody for others and determine mathematical accuracy.
   • Agree the reconciled balance of the liability for assets held in custody for others per the reconciliation to the general ledger.

20. Inspect twenty-five composite reservoir account receipts to determine that they were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations and that they were recorded in the proper fiscal year, and that any retention or remittance of revenue is supported by law.

21. Inspect twenty-five composite reservoir account disbursements to determine if these disbursements were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations, were bona fide disbursements of the agency, were paid in conformity with State laws and regulations and that goods and/or services were procured in accordance with applicable laws and regulations.
