We have performed the procedures described below, which were agreed to by the South Carolina Office of State Auditor and management of South Carolina Department of Commerce (the “Department”), solely to assist you in evaluating the performance of the Department for the fiscal year ended June 30, 2014, in the areas addressed. The Department’s management is responsible for its financial records, internal controls and compliance with State laws and regulations. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

1. **Cash Receipts and Revenues**
   - We inspected selected recorded receipts to determine if these receipts were properly described and classified in the accounting records in accordance with the Department’s policies and procedures and State regulations.
   - We inspected selected recorded receipts to determine if these receipts were recorded in the proper fiscal year.
   - We made inquiries and performed substantive procedures to determine if revenue collection and retention or remittance were supported by law.
   - We compared current year recorded revenues at the subfund and account level from sources other than State General Fund appropriations to those of the prior year. We investigated changes in the earmarked, restricted and federal funds to ensure that revenue was classified properly in the Department’s accounting records. The scope was based on agreed upon materiality levels $520,000 – earmarked fund, $160,000 – restricted fund, and $160,000 – federal fund and ± 10 percent.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.
2. **Non-Payroll Disbursements and Expenditures**
   - We inspected selected recorded non-payroll disbursements to determine if these disbursements were properly described and classified in the accounting records in accordance with the Department’s policies and procedures and State regulations, were bona fide disbursements of the Department, and were paid in conformity with State laws and regulations; if the acquired goods and/or services were procured in accordance with applicable laws and regulations.
   - We inspected selected recorded non-payroll disbursements to determine if these disbursements were recorded in the proper fiscal year.
   - We compared current year expenditures at the subfund and account level to those of the prior year. We investigated changes in the general, earmarked, restricted and federal funds to ensure that expenditures were classified properly in the Department’s accounting records. The scope was based on agreed upon materiality levels $250,000 – general fund, $170,000 – earmarked fund, $180,000 – restricted fund, and $150,000 – federal fund and ± 10 percent.
   The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

   - We compared the percentage change in recorded personal service expenditures to the percentage change in employer contributions; and computed the percentage distribution of recorded fringe benefit expenditures by fund source and compared the computed distribution to the actual distribution of recorded payroll expenditures by fund source. We investigated changes of ± 10 percent to ensure that payroll expenditures were classified properly in the Department’s accounting records.
   The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

Accountant’s Comments

Management of each State agency is responsible for establishing and maintaining internal controls to ensure compliance with State Laws, Rules or Regulations. The procedures agreed to by the agency require that we plan and perform the engagement to determine whether any violations of State Laws, Rules or Regulations occurred.

SECTION A - OTHER WEAKNESSES

The conditions described in this section have been identified while performing the agreed-upon procedures but they are not considered violations of State Laws, Rules or Regulations.

Reporting Packages – Capital Assets

Condition – The Department of Commerce’s procedures and controls were inadequate to ensure proper reporting of capital assets in the year-end capital asset reporting package.

Context – The Department of Commerce incorrectly reported and classified property owned by the Palmetto Railways, a division of the Department, in their year-end reporting package. The Palmetto Railways is considered a blended component unit that is classified as an enterprise fund and accounted for as a business-type activity. The Department of Commerce recorded the land acquisition made by Palmetto Railways in their capital asset ledger and reported the acquisition in the Department’s governmental activities capital assets reporting package.

Cause – There is a lack of adequate review by Department of Commerce Supervisor staff.

Effect – Overall capital assets as recorded are overstated.

Criteria – Internal control procedures affect an agency’s ability to process financial transactions that are authorized and accurate. Section 1.7 of the Comptroller General’s Reporting Package Procedures Manual states, “Each agency executive director and finance director are responsible for submitting to the Comptroller General’s Office reporting packages that are accurate and prepared in accordance with instructions, complete, and timely.” This requirement acts as a control over financial reporting for the State’s financial statements.

Recommendation – We recommend that additional procedures and controls be developed and implemented by the Department of Commerce to ensure that the financial information provided in reporting packages are reported accurately in accordance with Section 1.7 of the procedure’s manual referenced above. Additionally, if the Department of Commerce continues to record capital assets of Palmetto Railways within their capital asset ledger, we recommend that policies and procedures be implemented to identify and report separately to the Comptroller General’s Office, such capital assets related to Palmetto Railways.
Reporting Packages – Prepaid Expenses

Condition – The Department of Commerce’s procedures and controls were inadequate to ensure proper reporting of prepaid expenses in the year end prepaid expenses reporting package.

Context – The Department of Commerce incorrectly overstated the overall total for prepaid expenses and the allocation of that total between current and non-current.

Cause – There is a lack of adequate review by Department of Commerce Supervisor staff.

Effect – Overall prepaid expenses as reported were overstated.

Criteria – Internal control procedures affect an agency’s ability to process financial transactions that are authorized and accurate. Section 1.7 of the Comptroller General’s Reporting Package Procedures Manual states, “Each agency executive director and finance director are responsible for submitting to the Comptroller General’s Office reporting packages that are accurate and prepared in accordance with instructions, complete, and timely.” This requirement acts as a control over financial reporting for the State’s financial statements.

Recommendation – We recommend that additional procedures and controls be developed and implemented by the Department of Commerce to ensure that the financial information provided in reporting packages are reported accurately in accordance with Section 1.7 of the procedure’s manual referenced above.
