Independent Accountants’ Report on Applying Agreed-Upon Procedures

Mr. Richard H. Gilbert, Jr., Deputy State Auditor
State of South Carolina
Columbia, South Carolina

We have performed the procedures described below, which were agreed to by the governing body and management of the South Carolina State Agency of Vocational Rehabilitation (the “Agency”) and the South Carolina Office of the State Auditor (the “State Auditor”), solely to assist you in evaluating the performance of the Agency for the fiscal year ended June 30, 2010, in the areas addressed. The Agency’s management is responsible for its financial records, internal controls and compliance with State laws and regulations. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

1. **Cash Receipts and Revenues**
   - We inspected 25 recorded receipts to determine if these receipts were properly described and classified in the accounting records in accordance with the Agency’s policies and procedures and State regulations.
   - We inspected 10 recorded receipts to determine if these receipts were recorded in the proper fiscal year.
   - We compared amounts recorded in the general ledger and subsidiary ledgers to those in the State's accounting system (STARS) as reflected on the Comptroller General's reports to determine if recorded revenues were in agreement. Effective November 2, 2009, the Agency implemented the South Carolina Enterprise Information System (SCEIS). Upon implementation of SCEIS, STARS reports were no longer used by the Agency.
• We compared current year recorded revenues at the subfund and object code level from sources other than State General Fund appropriations to those of the prior year. We investigated changes in the earmarked and federal funds to ensure that revenue was classified properly in the Agency’s accounting records. The scope was based on agreed-upon materiality levels ($140,000 – earmarked fund and $430,000 – federal fund) and +/- 10 percent.

The individual transactions were chosen randomly. We found no exceptions as a result of the procedures.

2. **Non-Payroll Disbursements and Expenditures**

• We inspected 25 recorded non-payroll disbursements to determine if these disbursements were properly described and classified in the accounting records in accordance with the Agency’s policies and procedures and State regulations, were bona fide disbursements of the Agency, were paid in conformity with State laws and regulations, and if the acquired goods and/or services were procured in accordance with applicable laws and regulations.

• We inspected 10 recorded non-payroll disbursements to determine if these disbursements were recorded in the proper fiscal year.

• We compared amounts recorded in the general ledger and subsidiary ledgers to those in various STARS reports to determine if recorded expenditures were in agreement. Effective November 2, 2009, the Agency implemented SCEIS. Upon implementation of SCEIS, STARS reports were no longer used by the Agency.

• We compared current year expenditures at the subfund and major object code level to those of the prior year. We investigated changes in the general, earmarked, and federal funds to ensure that expenditures were classified properly in the Agency’s accounting records. The scope was based on agreed-upon materiality levels ($70,000 – general fund, $140,000 – earmarked fund, and $430,000 – federal fund) and +/- 10 percent.

The individual transactions were chosen randomly. We found no exceptions as a result of the procedures.

3. **Payroll Disbursements and Expenditures**

• We inspected 25 recorded payroll disbursements to determine if the selected payroll transactions were properly described, classified, and distributed in the accounting records; persons on the payroll were bona fide employees; payroll transactions, including employee payroll deductions, were properly authorized and were in accordance with existing legal requirements and processed in accordance with the Agency’s policies and procedures and State regulations.
• We inspected 2 selected payroll vouchers to determine if the vouchers were properly approved and if the gross payroll agreed to amounts recorded in the general ledger and in STARS. Effective November 2, 2009, the Agency implemented SCEIS. Upon implementation of SCEIS, STARS reports were no longer used by the Agency.

• We inspected payroll transactions for 5 new employees and 5 individuals who terminated employment to determine if the employees were added and/or removed from the payroll in accordance with the Agency’s policies and procedures, that the employee’s first and/or last pay check was properly calculated, and that the employee’s leave payout was properly calculated in accordance with applicable State law.

• We compared amounts recorded in the general ledger and subsidiary ledgers to those in various STARS reports to determine if recorded payroll and fringe benefit expenditures were in agreement. Effective November 2, 2009, the Agency implemented SCEIS. Upon implementation of SCEIS, STARS reports were no longer used by the Agency.

• We compared current year payroll expenditures at the subfund and major object code level to those of the prior year. We investigated changes in the general, earmarked, restricted and federal funds to ensure that expenditures were classified properly in the Agency’s accounting records. The scope was based on agreed-upon materiality levels ($70,000 – general fund, $140,000 – earmarked fund, and $430,000 – federal fund) and +/- 10 percent.

• We compared the percentage change in recorded personal service expenditures to the percentage change in employer contributions; and computed the percentage distribution of recorded fringe benefit expenditures by fund source and compared the computed distribution to the actual distribution of recorded payroll expenditures by fund source. We investigated changes of +/- 5% percent to ensure that payroll expenditures were classified properly in the Agency’s accounting records.

The individual transactions were chosen randomly. We found no exceptions as a result of the procedures.

4. Journal Entries, Operating Transfers and Appropriation Transfers

• We inspected 15 recorded journal entries, 5 operating transfers, and 5 appropriation transfers to determine if these transactions were properly described and classified in the accounting records, that they agreed with the supporting documentation, the purpose of the transactions was documented and explained, the transactions were properly approved, and were mathematically correct, and the transactions were processed in accordance with the Agency’s policies and procedures and State regulations.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.
5. **Appropriation Act**

- We inspected Agency documents, observed processes, and/or made inquiries of Agency personnel to determine the Agency’s compliance with Appropriation Act general and Agency specific provisos.

We found no exceptions as a result of the procedures.

6. **Closing Packages**

- We obtained copies of closing packages as of and for the year ended June 30, 2010, prepared by the Agency and submitted to the State Comptroller General. We inspected the closing packages to determine if they were prepared in accordance with the Comptroller General's [GAAP Closing Procedures Manual](#) requirements and if the amounts reported in the closing packages agreed with the supporting workpapers and accounting records.

We found no exceptions as a result of the procedures.

7. **SCEIS Implementation**

- We compared cash, revenue and expenditure account closing balances from the Agency’s legacy system to opening balances input into SCEIS to ensure that the Agency carried forward the proper account balances to SCEIS.

We found no exceptions as a result of the procedures.

8. **Status of Prior Findings**

- We inquired about the status of the findings reported in the Accountants’ Comments section of the State Auditor’s Report on the Agency resulting from the State Auditor’s engagement for the fiscal year ended June 30, 2008, to determine if the Agency had taken corrective action. We applied no procedures to the Agency’s accounting records and internal controls for the year ended June 30, 2009.

We found no exceptions as a result of the procedures.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the specified elements, accounts, or items. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Governor, the governing body and management of the South Carolina State Agency of Vocational Rehabilitation, and the South Carolina Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties.

ACCOUNTANTS’ COMMENTS

STATUS OF PRIOR FINDINGS

During the current engagement, we reviewed the status of corrective action taken on each of the findings reported in the Accountants’ Comments section of the State Auditor’s Report on the Agency for the fiscal year ended June 30, 2008, and dated March 9, 2009. We applied no procedures to the Agency’s accounting records and internal controls for the year ended June 30, 2009. We determined that the Agency has taken adequate corrective action on each of the findings.
