INDEPENDENT ACCOUNTANT’S REPORT ON APPLYING AGREED-UPON PROCEDURES

March 27, 2007

The Honorable Mark Sanford, Governor
and
Members of the Commission
South Carolina Human Affairs Commission
Columbia, South Carolina

We have performed the procedures described below, which were agreed to by the governing body and management of South Carolina Human Affairs Commission (the Commission), solely to assist you in evaluating the performance of the Commission for the fiscal year ended June 30, 2006, in the areas addressed. The Commission’s management is responsible for its financial records, internal controls and compliance with State laws and regulations. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified parties in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and the associated findings are as follows:

1. **Cash Receipts and Revenues**
   - We inspected selected recorded receipts to determine if these receipts were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations and to determine that revenue collection and retention or remittance were supported by law.
   - We inspected selected recorded receipts to determine if these receipts were recorded in the proper fiscal year.
   - We compared amounts recorded in the general ledger and subsidiary ledgers to those in the State’s accounting system (STARS) as reflected on the Comptroller General’s reports to determine if recorded revenues were in agreement.
   - We compared current year recorded revenues at the subfund and object code level from sources other than State General Fund appropriations to those of the prior year. We investigated changes in the general, earmarked, and federal funds to ensure that revenue was classified properly in the agency’s accounting records. The scope was based on agreed upon materiality levels ($115 – general fund, $10,537 – earmarked fund, and $9,415 – federal fund) and ± 10 percent.
The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

2. **Non-Payroll Disbursements and Expenditures**
   - We inspected selected recorded non-payroll disbursements to determine if these disbursements were properly described and classified in the accounting records in accordance with the agency’s policies and procedures and State regulations, were bona fide disbursements of the Commission, and were paid in conformity with State laws and regulations; if the acquired goods and/or services were procured in accordance with applicable laws and regulations.
   - We inspected selected recorded non-payroll disbursements to determine if these disbursements were recorded in the proper fiscal year.
   - We compared amounts recorded in the general ledger and subsidiary ledgers to those in various STARS reports to determine if recorded expenditures were in agreement.
   - We compared current year expenditures at the subfund and major object code level to those of the prior year. We investigated changes in the general, earmarked, and federal funds to ensure that expenditures were classified properly in the agency’s accounting records. The scope was based on agreed upon materiality levels ($18,109 – general fund, $10,733 – earmarked fund, and $7,059 – federal fund) and ±10 percent.

The individual transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

3. **Payroll Disbursements and Expenditures**
   - We inspected selected recorded payroll disbursements to determine if the selected payroll transactions were properly described, classified, and distributed in the accounting records; persons on the payroll were bona fide employees; payroll transactions, including employee payroll deductions, were properly authorized and were in accordance with existing legal requirements and processed in accordance with the agency’s policies and procedures and State regulations.
   - We inspected selected payroll vouchers to determine if the vouchers were properly approved and if the gross payroll agreed to amounts recorded in the general ledger and in STARS.
   - We inspected payroll transactions for all new employees and those who terminated employment to determine if the employees were added and/or removed from the payroll in accordance with the agency’s policies and procedures, that the employee’s first and/or last pay check was properly calculated and that the employee’s leave payout was properly calculated in accordance with applicable State law.
   - We compared amounts recorded in the general ledger and subsidiary ledgers to those in various STARS reports to determine if recorded payroll and fringe benefit expenditures were in agreement.
   - We compared current year payroll expenditures at the subfund and major object code level to those of the prior year. We investigated changes in the general, earmarked, and federal funds to ensure that expenditures were classified properly in the Commission’s accounting records. The scope based on agreed upon materiality levels ($18,109 – general fund, $10,733 earmarked fund, and $7,059 – federal fund) and ±10 percent.
• We compared the percentage change in recorded personal service expenditures to the percentage change in employer contributions; and computed the percentage distribution of recorded fringe benefit expenditures by fund source and compared the computed distribution to the actual distribution of recorded payroll expenditures by fund source. We investigated changes of ± 5% to ensure that payroll expenditures were classified properly in the Commission’s accounting records.

The individual transactions selected were chosen randomly. Our finding as a result of these procedures is presented in Employee Profile Funding Source in the Accountant’s Comments section of this report.

4. Journal Entries, Operating Transfers and Appropriation Transfers
• We inspected selected recorded journal entries, operating transfers, and appropriation transfers to determine if these transactions were properly described and classified in the accounting records; they agreed with the supporting documentation, the purpose of the transactions was documented and explained, the transactions were properly approved, and were mathematically correct; and the transactions were processed in accordance with the agency’s policies and procedures and State regulations.

The individual journal entries selected were chosen randomly. We found no exceptions as a result of the procedures.

5. General Ledger and Subsidiary Ledgers
• We inspected selected entries and monthly totals in the subsidiary records of the Commission to determine if the amounts were mathematically accurate; the numerical sequences of selected document series were complete; the selected monthly totals were accurately posted to the general ledger; and selected entries were processed in accordance with the agency’s policies and procedures and State regulations.

The transactions selected were chosen randomly. We found no exceptions as a result of the procedures.

6. Reconciliations
• We obtained all monthly reconciliations prepared by the Commission for the year ended June 30, 2006, and inspected selected reconciliations of balances in the Commission’s accounting records to those in STARS as reflected on the Comptroller General’s reports to determine if accounts reconciled. For the selected reconciliations, we determined if they were timely performed and properly documented in accordance with State regulations, recalculated the amounts, agreed the applicable amounts to the Commission’s general ledger, agreed the applicable amounts to the STARS reports, determined if reconciling differences were adequately explained and properly resolved, and determined if necessary adjusting entries were made in the Commission’s accounting records and/or in STARS.

The reconciliations selected were chosen randomly. We found no exceptions as a result of the procedures.
7. **Appropriation Act**
   - We inspected agency documents, observed processes, and/or made inquiries of agency personnel to determine the Agency’s compliance with Appropriation Act general and agency specific provisos.

   We found no exceptions as a result of the procedures.

8. **Closing Packages**
   - We obtained copies of all closing packages as of and for the year ended June 30, 2006, prepared by the Commission and submitted to the State Comptroller General. We inspected them to determine if they were prepared in accordance with the Comptroller General’s GAAP Closing Procedures Manual requirements and if the amounts reported in the closing packages agreed with the supporting workpapers and accounting records.

   We found no exceptions as a result of the procedures.

9. **Schedule of Federal Financial Assistance**
   - We obtained a copy of the schedule of federal financial assistance for the year ended June 30, 2006, prepared by the Commission and submitted to the State Auditor. We inspected it to determine if it was prepared in accordance with the State Auditor’s letter of instructions and if the amounts agreed with the supporting workpapers and accounting records.

   We found no exceptions as a result of the procedures.

   We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the specified elements, accounts, or items. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

   This report is intended solely for the information and use of the Governor and of the governing body and management of the Commission and is not intended to be and should not be used by anyone other than these specified parties.

   Richard H. Gilbert, Jr., CPA
   Deputy State Auditor
ACCOUNTANT’S COMMENTS
VIOLATION OF STATE LAWS, RULES OR REGULATIONS

Management of each State agency is responsible for establishing and maintaining internal controls to ensure compliance with State Laws, Rules or Regulations. The procedures agreed to by the agency require that we plan and perform the engagement to determine whether any violations of State Laws, Rules or Regulations occurred.

The condition described in this section has been identified as a violation of State Laws, Rules or Regulations.
EMPLOYEE PROFILE FUNDING SOURCE

Our review of twenty-five payroll transactions disclosed that the funding source shown on the Office of Human Resources (OHR) Employee Profile for one employee did not agree with the Agency’s records. The Agency changed the funding source from 50% State / 50% Other to 100% State effective March 16, 2006; however, the OHR online Human Resource Information System (HRIS), which generates the employee profile, was not updated to reflect this change.

Section 8-11-230 of the South Carolina Code of Laws requires the OHR to establish and maintain a central personnel data system on all State employees and, in coordination with agencies served, determine the data to be recorded on employees and positions and the procedures and forms to be used by all agencies in reporting data. In order to maintain the integrity and completeness of the central personnel data system (HRIS), all agencies are required to submit appropriate information in a timely manner.

We recommend that the Agency update HRIS for all changes in employee information on a timely basis.
MANAGEMENT’S RESPONSE
RESPONSE TO ACCOUNTANT’S COMMENTS

Employee Profile Funding Source

In the matter of the one (1) payroll transaction where it was found that the Employee Profile (Office of Human Resources form) did not agree with the Agency’s payroll records, it should be noted that the funding source of this position was changed for the last quarter of the fiscal year, and was therefore considered a temporary change.

The purpose of this change was the matching of Agency revenues with expenditures in accordance with Proviso 63.12 of the 2005-06 Appropriations Act. …”As far as practicable all departments, institutions and agencies of the State are hereby directed to budget and allocate appropriations as quarterly allocation so as to provide for operation on uniform standards throughout the fiscal year and in order to avoid an operating deficit for the fiscal year.”

It should also be noted, that this change did not constitute an exceeding of the total number of full-time equivalent positions funded from state sources.

Additionally, during fiscal year 2007-08, the Human Affairs Commission has completed an internal reconciliation of payroll and Human Resources records, and has determined that these records are in agreement.
4 copies of this document were published at an estimated printing cost of $1.37 each, and a total printing cost of $5.48. Section 1-11-125 of the South Carolina Code of Laws, as amended requires this information on printing costs be added to the document.
